### IP-1850FL - Instant Power™ with 18-AH Internal Battery

This versatile unit has a maintenance-free, 18 ampere hour battery that delivers 850 peak amps and 250 crank assist amps. Its extra wide base provides maximum stability and safety.

- Jump Starter On/Off switch – completely shuts off internal battery at clamps for added safety eliminating accidental shorting of clamps and battery drain.
- Convenient, built-in charger transformer – for automatic charging of internal battery. Just connect an extension cord to the plug in the back to recharge. Charging LED will glow.
- Easy-to-read battery status LEDs – tell when internal battery is at Full Power, 75% Charged or 50% or Less. An audible low-battery alarm beeps when battery is at less than 50% charge.
- Charging and Charged LED indicator – to help easily monitor the charging of the internal battery.
- Heavy-duty, copper jaw, 300 amp, metal clamps – for solid connections to top and side post batteries. #4 gauge, 28-inch cable – stays flexible in the coldest of temperatures.
- Reverse hookup protection – safeguards car battery, computer and Instant Power from damage if the cables are connected to the wrong terminals. An audible alarm warning sounds when clamps are reversed or touched together.
- Durable, rust and corrosion-proof, one-piece construction, polypropylene case – resists fuels and solvents.
- Compact size – easily stores in any position.

30 amp rapid charge – for very fast charging.  
Charges in 1 to 2 hours.

"Hold" position – for continuous charging  
Durable construction with tubular handle.

UL Rating: 30 amp and 60 amp continuous,  
300 amp start.  
Discharge Rating: 40/80 amp.
