The PRO Compact A/C Dye Injector with 'CLIP-IN' dye cartridge.

A heavy duty dye injector, with a precision machined brass body and protective rubber cushion that provides a comfortable and ergonomically advance grip. Injector actuation handle also rubber protected provides a non-slip grip for extremely rapid operation. Heavy duty precision machined piston drive is chromed for durability & long life. Smooth dye cartridge insertion mechanism with unique insert, twist and lock. Locking mechanism ensures that cartridges are inserted and held firmly reducing accidental discharge or ejection of cartridge. Cartridges each contain 14 shots of dye in a transparent injector with screw cap. Cartridges have graduated markings on them. Injector and cartridge system has the unique feature such that one complete revolution of injector actuator will inject one complete dose.

One dose is sufficient for most car A/Cs.
Dye is universal and is also suited for use in other residential & commercial HVAC applications.
Meets requirements of SAE-J2297. Designed for efficient long term, heavy duty use.
