DAYCO BELT DIAGNOSTIC KIT

Sale: \$99.95
Regular: \$109.99

#93874

Complete on-line training video available at:
www.youtube.com Enter: Dayco Krikit Tension Gauge

Improperly tensioned belts cause slippage, squealing, heat build-up and premature failure. Dayco engineers recommend careful belt tensioning.

After a new belt has been installed, run engine for 3 to 5 minutes to seat belt. After seating belt, reset tension to amount recommended in the RETENSION AMOUNT column of the Belt Tension Tables found in the Kit.

Kit contains:

- 1 Belt Tension Gauge
- 3 Belt Wear Gauges
- 1 Two Piece Laser Belt Alignment Tool
- Instructions/Belt Tension Tables

Be sure that every belt is properly installed!

Q-Bond

Special: \$14.95
List: \$21.00

#QBDQB-2

Q-Bond is an award winning product for repairing various types of breaks, cracks and other damages to a wide range of items.

For more serious repairs there is the two-part system with unique filling and reinforcing capabilities by which cracks, holes and gaps can be repaired to regain their original shape. These repairs can be ground, filed, sanded and painted.

The Adhesive can be used as a super glue but, unlike most adhesives, it will create a permanent bond in 10 seconds!

FOR: Radiators, Grills, Hand Tools, Fairings, Bumpers, Rear View Mirrors, Side Mirrors, Appliances, Office Machines, Tappet Covers, Handles, Cases and Casings - you name it!
