

# XTREME STOP BRAKE ROTORS AND PADS. A FIRST LINE SOLUTION.

Research and Development Funded by the Canadian Government

**XtremeStop** Cross Drilled and Slotted High Performance Rotors brings to the automotive market the highest quality OEM replacement rotors. Every rotor is developed through our R&D department and will perfectly fit all makes and models without any need for modifications to your braking system.

Engineered and Produced in North America (Toronto-Canada), **XtremeStop** Rotors are designed with a commitment to excellence in order to craft and produce the highest performance rotor at the best value possible.

Ensure that your customers' cars are filled with the proper grade of quality oil!

**THE BASICS OF OIL MAINTENANCE**

Today, every engine is different, with different lubrication requirements. Using the right oil improves a car's performance, so it's more essential than ever to choose correctly.

We have the solution for multiple oil requirements:

**Shell Ecobox™ Gravity System "Pour System"**

**Ecobox 3 SKU Rack**

Now you can meet the specialty oil requirements of a wide variety of vehicles that visit your shop for service.

Pennzoil, Quaker State and Rotella Brands available in the Ecobox system.

Selection of different grades and specialty oils.

Each Ecobox holds 22.7 litres. Extra boxes can be stored for immediate use.

Special 7.5 pouring units provide easy carry from the Ecobox spout to the vehicle.

Easily compacted and recycled. Reduce waste and cost associated with waste removal.

Rack Dimensions with Ecobox:

3 SKU Rack  
 Depth 24" x Width 26" x Height 80"

6 SKU Rack  
 Depth 24" x Width 46" x Height 80"

Pricing varies by brand and grade of oil. Call to determine pricing and discuss this solution to your shop's need for a variety of oils for new automobiles.

Purchase 3 or 6 Ecoboxes and receive the Ecobox Rack and Pour Containers Free.

**VDO**  
**VDO REDI-Sensor Multi-Application TPMS**  
 The VDO REDI-Sensor brings simplicity, ease of installation and better profit potential to TPMS service. We've developed a new technological breakthrough based on the concept of having one TPMS sensor work with multiple makes and models. Covers over 90% of GM, Ford and Chrysler vehicles from 2002-2011. Asian and Euro cars coming soon. REDI-Sensor works with all major TPMS scan tools including ATEQ, Bartec, OTC and T.I.P.S. With REDI-Sensor, technicians can use the OE scan tool procedures for TPMS service - no new service routines are required.
