**FRAM®**

**ALL AirHog Filters 50% OFF While Supplies Last**

FRAM® engineers designed every hi-performance air filter to allow the engine to "HOG" all available air. More airflow to the engine can result in increased horsepower and acceleration. The 4-layer cotton gauze material allows more airflow than traditional disposable paper filters for better vehicle performance.

For turbo applications FRAM® engineers developed an 8 layer cotton gauze filter designed for additional efficiency with virtually no additional restrictions of air.

Each FRAM® AirHog™ Air Filter is washable and reusable for the life of the vehicle.

**MORE AIRFLOW TO YOUR ENGINE CAN MEAN MORE HORSEPOWER AND BETTER ACCELERATION**

A 4 layer precision weaved cotton fiber allows more airflow than traditional disposable paper filters.
