

EVERYBODY'S TALKING
ABOUT dexos™

WE'RE ALREADY THERE.

2011 Sport-Injected Buick Regal

PENNZOIL® AND QUAKER STATE®
ARE **GM dexos™ APPROVED**
FULL SYNTHETIC MOTOR OILS.

This fall, General Motors is introducing dexos1™- GM's newest global engine oil specification for gasoline and E85-fueled vehicles.

dexos™ marks a significant shift from how the industry has traditionally set engine oil specifications, and according to GM, allows them to ensure the same high quality oils are available throughout the U.S. In doing so, GM believes it will be able to realize the economic benefits of consolidating many previous GM engine oil specifications. Globally, numerous specifications have been consolidated down to one. In the U.S., dexos™ replaces two previous GM engine oil specifications. Shell is an oil supplier licensed to manufacture and market authentic dexos™ full synthetic engine oil. GM requires dexos™ all for Buick, Chevrolet, Cadillac and GMC vehicles starting with the 2011 model year and, with backwards compatibility, is a good choice for previous model year vehicles.

Shell offers Pennzoil Platinum® and Quaker State® Ultimate Durability™ SAE 5W-30 full synthetic engine oils under the dexos™ license. According to GM, the benefits of using dexos™ includes improved fuel economy, better engine protection and reduced emissions. More specifically, the dexos™ specification provides enhanced performance in the areas needed by GM engine technology.

Additional benefits of using Shell products include: Pennzoil Platinum® provides unsurpassed engine cleansing and protection for better performance* †, and Quaker State® Ultimate Durability™ provides unsurpassed engine protection from friction-related wear†.

GM's dexos™ specification is designed to offer a slate of advantages over the requirements of GM's previous specifications, including improved levels of wear protection, engine cleanliness, fuel economy, corrosion protection, sludge control and aeration control.

Shell is leading the industry. Others are talking about dexos™.

Pennzoil Platinum® and Quaker State® Ultimate Durability™ are already dexos™ - approved in the popular SAE 5W-30 viscosity grade.
